November 23, 2022

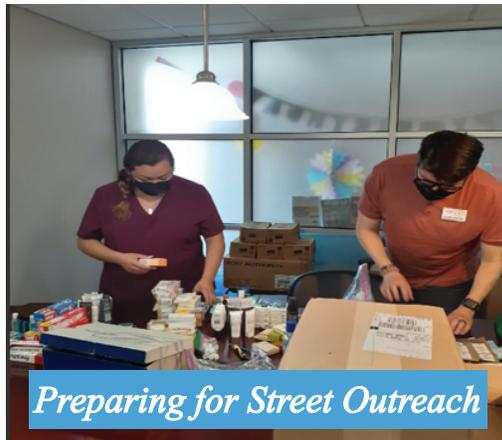

Dear Friend,

You have helped us accomplish so much and you must know that we are incredibly grateful. Your support and investment in the health and well-being of our needy community members has made life-affirming healthcare and social services available to thousands in our community. Your donations have saved lives and changed the trajectory of the lives of many. You have stood with us and lifted up our neighbors in need and we are more than thankful.

WGMC provides health care, emergency shelter, medication, social services, case management, street outreach and so much more. We provide whole-person health-care. We recently helped a family who had been devastated by a house fire, trauma, systemic infections and limb amputations. This family is now housed, medically stable and recovering. We also recently sheltered an individual who was unable to begin chemotherapy because he was living in his car. He is now in emergency shelter and receiving the treatment needed to battle cancer. We coordinated a triple by-pass surgery for an out of work father and supported him and his family with case management, care coordination, and more. None of this would have been possible without you. You are changing lives every day. Your support is making families and individuals whole again, thank you.

We are grateful for your generosity and kindness! This calendar year alone we have served more than 1,200 individuals. We continued our core services, while also expanding services. Our care model addresses the complicated needs of our patients in partnership with other healthcare providers, including the health department, local hospitals, physician practices, and our dedicated volunteers. In 2022, we expanded our care to include mental health services through a licensed clinical social worker and a nurse practitioner. The addition of these services more fully addresses our patient's needs.

Thank you for supporting WGMC in providing care to those most in need. Every dollar donated leverages upwards of \$20 in high quality medical care. Donations can be sent using the enclosed envelope or on our website <http://willgrundymedicalclinic.org/annual-appeal-2022-2023/>. Please join our board, staff and community members this holiday season in ensuring everyone has access to healthcare, regardless of their ability to pay.

With Gratitude,

Shawn Marconi
