Board Members,

As we reflect on where we are and how far we've come, a deep sense of humility emerges—humility in recognizing the incredible, courageous work this board has done in service to our community. Thank you for all that has been contributed.

Let's make this dinner a special one—an opportunity to pause, celebrate, and honor our shared commitment. And then, let us prepare for the important work ahead.

Together, we will continue to ensure that everyone in our community has access to the health and social care they need to truly thrive.
